

Based at our site in **Hochdorf or Sulgen**, we are looking for a  
**R&D Specialist / Project Manager China  
Development & Application Baby Care**

The HOCHDORF Group is one of Switzerland's leading food companies and employs over 600 people world wide. Our company operates internationally in the areas of Dairy Ingredients and Baby Care. Our products contribute towards good health and well-being – from infants to senior citizens. Our customers include the food industry and the wholesale and retail sectors at home and abroad.

The Baby Care Division develops, produces and markets premium milk-based infant formula products around the world. As R&D Specialist & Project Manager, you will be responsible for the design and development of new products, especially for the Chinese Market. You are an innovative person who can make a significant contribution to meeting our customer's needs with high-quality products.

### The role

- R&D Specialist, specially focusing to support our Chinese customers
- Developing new products and processes to meet market requirements
- Follow and implement Chinese national standards (GB requirements)
- Support new product registration processes
- Supervising and supporting the production process from the initial concept to testing and production readiness
- Evaluating and continually optimising formulations and processes
- Responsible for formulations and supporting Sales with customer requests
- Create product specifications and documentations
- Member of the HACCP Team

### Your profile

- Master's degree or PhD in Food Science or equivalent
- You have experience in at least one of the following areas:
  - Product development and project management in the food industry
  - Infant formula industry
  - Chinese national standards on infant formula
- Ability to take initiative and an exact and structured way of working
- Awareness and profound knowledge of Chinese culture and business
- Excellent written and verbal skills in Mandarin and English are a pre-requisite, good written and verbal skills in German is a plus
- Motivated, resilient and communicative personality
- Willingness to travel (approximately 20%)

### What we offer

We offer a challenging, autonomous and interesting role with progressive employment conditions and excellent social benefits. A motivating working environment completes our overall package.

### Your application

We look forward to receiving your electronic application. For more information about the post, please contact Ms Cornelia Buss, HOCHDORF Swiss Nutrition Ltd, 6281 Hochdorf, +41 41 914 66 98.
